

NALUBEGA JOAN

PORTFOLIO

ABOUT ME

I am a first year student at Women Institute of Technology and Innovation pursuing a Diploma in Computer science and Entrepreneurship.

The fact that I offered and loved art during my O'level ,I found myself captivated by the ability to turn a blank artboard into a visual masterpiece.

Design for me is more than just creating aesthetically pleasing visuals ;it's a language that communicates emotions,stories and ideas.

I'm fueled by the endless possibilities that design offers and the thrill of transforming concepts into tangible,impactful creations.

Whether its the elegance of minimalism or the vibrancy of color,my passion lies in crafting designs that leave a lasting impression and resonate with the audience on profound level.

As a graphics design student,my purpose is to not only master the technical aspects of design but to harness knowledge as a tool for positive change .

I believe design has the power to influence perceptions ,inspire action and elevate human experiences. My goal is to immerse myself in a learning environment that fosters creativity and encourages innovative thinking.

Through my journey in design, I aspire to contribute to projects that not only showcase my skills but also make a meaningful impact in the world.I am committed to continuous learning ,collaboration ,and pushing the boundaries of what visual communication can achieve.

MY PROJECTS

FLIER

This flier is about Rotaract charter night celebrations. As a rotaractor I always get inspired with the amazing work and services Rotary extends to the public ;As a way of communicating to the public and make people aware of their services and activities that take place ,Fliers and posters are always used. Getting my inspiration from Rotaract club of Mukono, I managed to create mine . The fact that it is in a soft copy format its easily accessible and can be sent to many people as well ;In this way communication is easily transferred ,people get informed of what activity is to take place,where and when without having alot of challenges moving here and there. I used gold and black as a color combination because to me it looks elegant and could easily bring out my design

WEDDING INVITATION CARD

Wedding Invitation

BENDICTO & JOAN

With great pleasure, the family of **Mr and Mrs Ssalongo Simbwa of Lugazi** together with the family of **Mr and Mrs Matovu Emmanuel of Kawempe** cordially invite the family of **Mr/Mrs.....** to the wedding ceremony of their beloved children **Kimbugwe Bendicto and Nalubega Joan** which will take place on **22nd.12.2023** at **Rubaga cathedral** starting at **10:00am**.

Almost everywhere world wide, every ladies dream is getting married to someone and find a place they call home. Thats where I got an idea of creating an invitation card because if its almost everyone's dream meaning it can impact on ones life .

The main objective of creating this was to inspire and give hope to all people out there who would wish to achieve it that there is still time and also sell my idea to those who find it appealing to come through for their own wedding invitation cards.

I used that color combination because it displays loyalty ,the rings to bring out the real picture of a wedding . and the flowers to bring out the beaty of what is about to happen.

SUCCESS

Dear
Bridget,

Alot of preparations have been made but as your finalising, I come to wish you God's blessings and favour as you start your exams...

I wish you success little sis

from
Joan

SUCCESS CARD

A success card in most cases it is given to candidates nearing Exams to give them hope,energy and to show that they are loved .

I used the clock as a symbol that time will not wait but they should use their time effectively and plants with different sizes to show them that what you invest in is what you get ,basically to inspire them to read and prepare more for their exams.

BABY SHOWER CARD

JOSEPHINE'S BABY SHOWER

The little angel in the womb is desperate to come out, but first, we need to shower the mom to be with blessings... You are cordially invited.

DATE: 14th.03.2024

VENUE: DEVINE RESORT MUKONO

I designed this card because lately baby showers are slowly turning into parties that are celebrated daily. I am looking at celebrating with expecting mothers by creating such amazing cards to inform their guests on when and where the celebrations will be.

"Before I was Born, My Father Dis -owned me"

NO
MORE
CHILD
REJECTION

P
O
W
E
R
S

No matter what you've both suffered,that was not my fault. As an innocent child,teenager or adult I dont deserve the abuse and rejection.

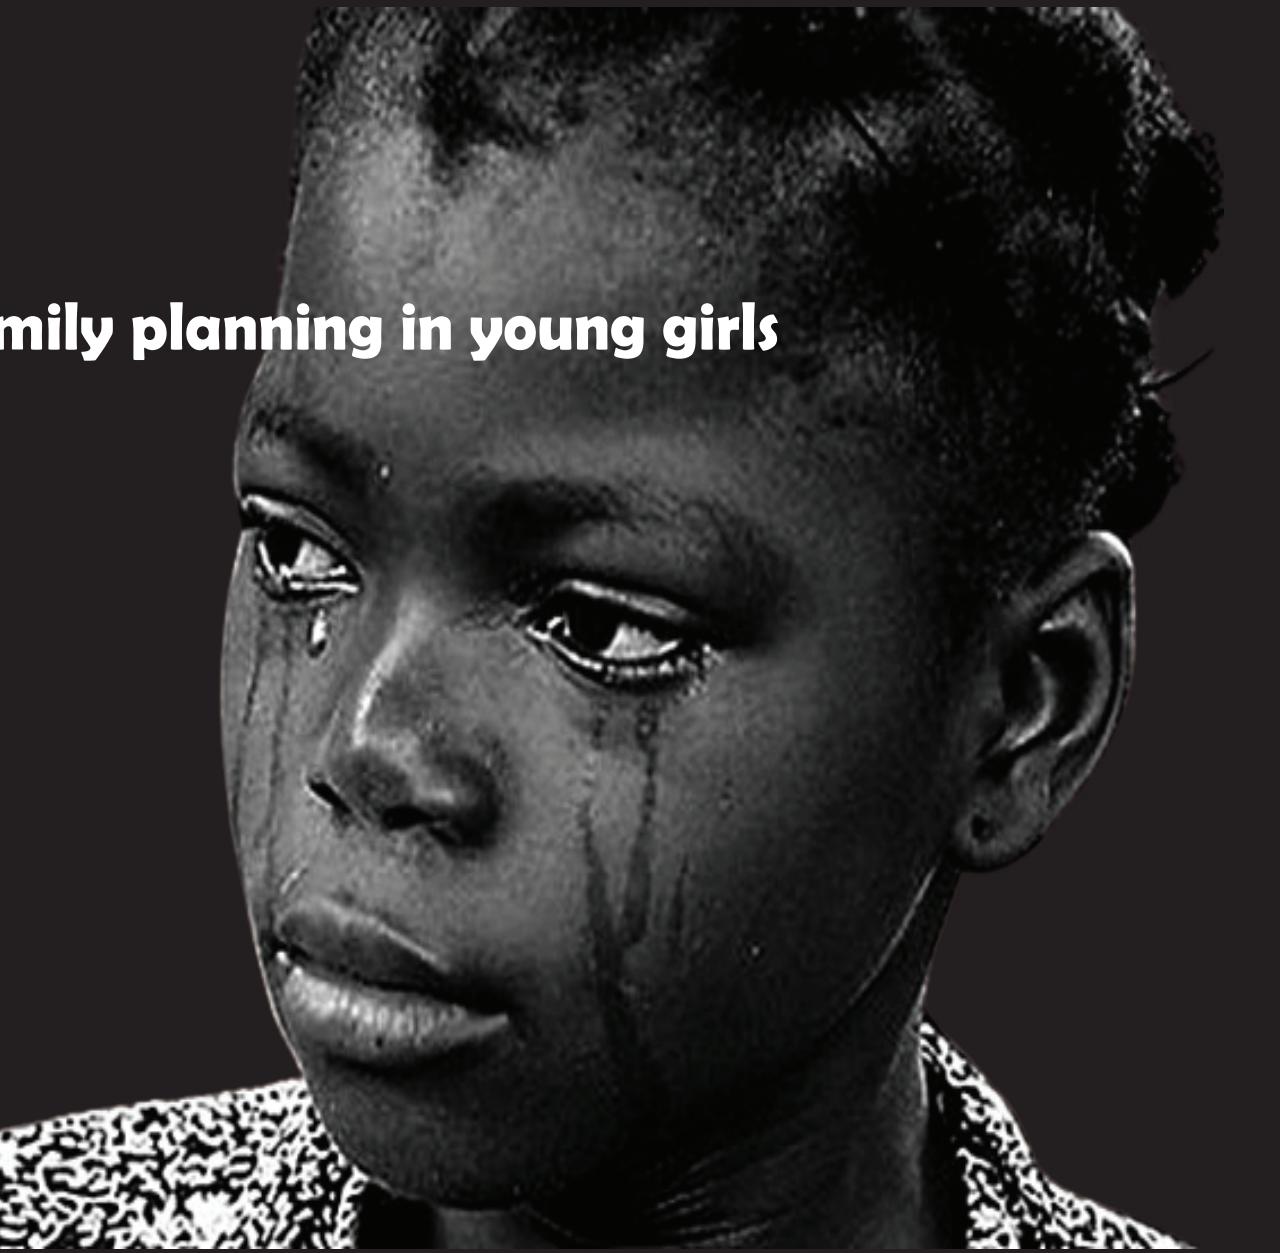

**I AM not a SAD story but a
RESULT of a HAPPY beginning**

AWARENESS POSTER

This is an awareness poster about children who are mistreated or rejected at a tender or adult age by either the father or mother . It simply portray the pain they go through and the trauma they get while growing up either from the community or the family it self.

The aim of this project is to create awareness and inform the public on what happens at the other end of the world where they are not in the purpose of helping so that these children to recover from this and if possible fight against such kinds of acts in our communities.

Girl child cry

#Say no to family planning in young girls

AWARENESS POSTER

This sticker is simply about family planning, lately government had a proposal that family planning should be made obligatory to every girl to avoid issues related to early pregnancies.

I got concerned because family planning it self at times comes with its own side effects and not every girl is actually interested in it , making it mandatory to every child may not look fair more so if one is vigilant and responsible for their lives.

This is aimed at giving people options to choose what's best for them rather than deciding for everyone .

GIVE US PENS NOT PILLS...
IT'S THE FAMILY WE'RE LOOKING UP TO IN FUTURE
NOT FAMILY PLANNING...

WE DESERVE BETTER

Uganda Times
NEWS LETTER

OCTOBER 2023 EDITION

**WELCOME TO
OUR NEWS LETTER**

In this newsletter, we are thrilled to share exciting information and activities about the fishery sector that will inspire and engage our readers.
Get ready for a fun-filled journey of exploration and growth.

UNDERSTANDING FISHERIES IN UGANDA

FISH EXPORT AND MARKETS

This article can help you to organise your fish and seafood to Europe, Middle-East and locally. It explains the most important factors and shows you the organisations that can support you. Although following the tips will minimise your risks and maximise your opportunities, this will not guarantee your business being successful... The COVID-19 crisis has made logistics more difficult, due to the changing measures in the country of origin and destination. This is why it is always a good idea...

Page 4

AQUACULTURE

Aquaculture is breeding, raising and harvesting fish and aquatic plants. Basically its farming in water either in ponds or lakes. Aquaculture is an environmentally responsible source of food and commercial products, helps create healthier habitats, and is used to rebuild stocks of threatened or endangered species...

Page 1

FISH PROCESSING

Fish processing refers to the processes associated with fish and fish products between the time fish is caught or harvested and the time the final product is delivered to the customer. Typically core processes include fish cleaning and grading, filleting /skinning, trimming, freezing and storage...

Page 2

FISH VALUE ADDITION

Value addition

- Value addition means "any additional activity that in one way or the other change the nature of a product thus adding to its value at the time of sale."
- Value addition is an expanding sector in the food processing industry, especially in export markets. Value is added to fish and fishery products depending on the requirement of different markets.
